To Whom It May Concern:

I am pleased to recommend Beth McGee, who has provided house cleaning services and occasional household management for our family for over 20 years.

During the time Beth has worked in our home, we have found her to be completely trustworthy and reliable. Her work is thorough and reflects the care she takes in making sure things are done to a high standard. She chooses products with care and uses only those supplies that are gentle on our home and its pets and people.

Beyond her cleaning services, Beth is also a warm and thoughtful communicator. I personally value this aspect of our relationship. Also over the years, there have been occasions when we have engaged Beth to manage our home and property in our absence or during an illness. She provided those services with the same care she applies to keeping our house clean and well-maintained.

If you are fortunate enough to engage Beth McGee's services, you will soon learn that she is an individual with a strong work ethic who will bring her best to any work she performs for you.

If you have further questions, Beth has my permission to provide you with my contact information.
